

JOAQUÍN NICOLÁS OVIEDO

DEVELOPMENT SUPERVISOR & POWER PLATFORM DEVELOPER

Argentina | joaquin.oviedo.fernandez@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software developer and development supervisor experienced in enterprise solutions, Power Platform, and backend development. I combine discovery, estimation, prioritization, and operational leadership with a technical foundation in .NET, React, and TypeScript. Focused on clear, maintainable, people-centered products.

EXPERIENCE

Circo Studio Projects for YPF	March 2024 - Present
Development Supervisor & Power Platform Developer Argentina	
- Manage the day-to-day evolution of a cross-company corporate application: gather requests with the client user and functional analysis, assess feasibility, estimate, prioritize, and delegate work. - Designed and built a reusable Power Apps UX framework with the design team, standardizing components, styles, and screens to improve consistency and reuse. - Train new team members, coordinate framework contributions, and support delivery while anticipating dependencies, risks, and future product needs. - Additional experience with Power Automate, SharePoint, Azure DevOps, Git, and PowerShell; initial training in React, TypeScript, and SharePoint Framework.	

SELECTED PROJECTS

WIRIN Backend Developer	2025
Academic team project - UNLaM	
- Contributed mainly to the backend of a bibliographic accessibility system: ASP.NET Core Web API on .NET 8, Entity Framework Core, JWT, SQL Server/PostgreSQL, and Azure OCR integration. - The platform coordinates digitization, volunteer tasks, statuses, administration, and users; the team presented WIRIN at UNLaM's 23rd University Digital Library Conference in November 2025.	
Local personal applications AI-assisted development	2026
React and TypeScript tools for personal finance management and Technology Management degree tracking, with privacy and local persistence as core constraints.	

EDUCATION

Bachelor's Degree in Technology Management UNLaM	2026 - 2027
In progress	
University Degree in Web Development UNLaM	2022 - 2025
GPA: 8.6/10	
Electronics Technician Instituto San José (A-355)	2014 - 2019
